

**UNIVERSAL  
STANDING  
SEAM**

Universal Standing Seam is simply just that, a product where the application possibilities are endless. Fashioned out of heavy-duty, Kynar 500®/Hylar 5000® coated galvanized steel, this system ensures your roof will remain not only functional but beautiful for decades.

With the option of being run in a 12" or 16" wide panel, Universal Standing Seam is suited for both residential and light commercial applications. Universal Standing Seam offers a modern take on traditional vertical seamed roofing systems, offering the protection and worry-free longevity of today's quality metal roofs.

Sold as a complete system, Universal Standing Seam boasts a hidden fastener design, with all trims and accessories made in a quality-controlled environment, ensuring that your custom roof is protected by a tried-and-true, and complete, roofing system. Don't leave your roof to chance. Enjoy the beauty and quality of the Universal Standing Seam roofing system for years to come.

## OUR COMMITMENT TO GREEN

Isaiah Industries, Inc. is deeply committed to the stewardship of our natural resources and the environment.

- **We reuse and recycle** – Universal Standing Seam is made from 35% post-consumer recycled steel. It is 100% recyclable at the end of its functional life.
- **We are energy-efficient** – Universal Standing Seam's technologically advanced Kynar 500® or Hylar 5000® coatings – featuring our exclusive HI-R® Heat Barrier technology – help reduce energy costs by up to 25% and reduce attic heat gain by up to 34%.
- **We save for the future** – Universal Standing Seam is truly a lifetime roofing solution, not only saving you from the vicious and expensive reroofing cycle, but also saving our planet one roof at a time by eliminating the need for temporary roofing that ends up in our landfills.

**Ask about available cool roofing tax credits and utility incentives in your area.
